LOCAL OPTION

A number of California papers have been publishing a series of articles by Franklin Hichborn, author of "The Story of the California Legislature of 1909," on "The Work of the Legislature of 1911." The last of these is on "The Local Option Law," and as this is now a live question all over the state, we are sure our readers will be interested in Mr. Hichborn's article. It is as follows:

One issue before the State—and a big one—is treated with suggestive silence in the platforms of both the Republican and Democratic parties—LOCAL OPTION.

And yet both parties proclaim loudly for the right to initiate laws.

Local Option is merely the application of the initiative principle to the retail liquor business.

Local Option gives the majority of a community opportunity to see whether saloons shall be licensed or not licensed.

There is nothing very revolutionary in that. Indeed, it is hard to see how anyone who believes in the fundamental principle of majority rule, or in the right of the people to initiate laws, can consistently object to Local Option.

And yet, both the Republicans and Democrats avoid the Local Option issue in their platforms as the plague.

This is not particularly surprising in the Democrats, because California Democrats are on record against Local Option, although their attitude is inconsistent with their advocacy of local self-government. It is refreshing to observe, however, that prominent Democrats of the Middle West are coming out strongly for the Democratic principle of the Local Option. In Iowa prominent Democrats are advocating Local Option on the ground that they are tired of hearing their party called "The Whiskey party."

William Jennings Bryan, one of the most logical advocates of Local Option, goes to the root of the question.

"Go and examine the houses of your great liquor dealers," he says, "the rich ones, and see how near they are to a saloon. Go with a petition and ask them to join with you in putting a saloon near their residences, and they are the last ones to do it. They will put a saloon by the house of a poor man and not only deprive his property of value, but run the risk of ruining those about the saloon, but they do not put it near their own homes."

The rich saloon-keeper keeps the saloon out of his home neighborhood.

Mr. Bryan speaks for the same right for the poor man to say whether the saloon shall go next door. Putting the principle tersely, Mr. Bryan says:

"I believe that every man has not only his duty as an individual but his duty as a citizen, and that as a citizen he must meet the responsibilities of citizenship and conscientiously act on every proposition affecting the liquor question as he acts on other propositions, and the first thing to admit is the right of the people to act on this question."

But the Democratic party in California is not willing, as are the Iowa Democratic progressive, and as is insisted upon by a man whom they have three times nominated for the presidency, to admit the right of the people to act on the liquor question.

At the last session of the California Legislature only three of the nine Democratic Senators—Campbell, Cartwright and Miller—voted for Local Option. Democrats who on all other issues were for the principle of people's rule and right to decide what they want, cast their votes against the bill. As has been seen, the Democratic platform is silent on this issue.

But that the progressive Republicans ignored Local Option is a matter of surprise and comment.

At the session of 1909, the insurgent Republicans, with scarcely an exception, voted for the Local Option bill, while the machine members disputed the passage of the measure, and finally defeated it.

If the insurgent Republicans thought to placate the "liquor interests" by failing to take a definite stand on Local Option, they were disappointed.

The "liquor interests" proceeded to flood the State with circulars advising against the election of any candidate, who had, at any time, expressed himself as favorably inclined toward the right of popular expression on the liquor question.

The "whisky fight" against Hon. A. J. Wallace, candidate for Lieutenant-Governor, for example, was one of the scandals of the campaign. In the circulars sent out by the "California Beer Bottlers" the saloon interests were asked, not only to oppose Mr. Wallace, but urged not to "be afraid to spend a dollar if necessary, where it will do some good."

The answer of the electors of California to this sort of campaign was the triumphant election of Mr. Wallace, as well as of most of the candidates for the Legislature, who were opposed by the liquor interests.

The liquor interests made Mr. Wallace an issue, and they lost.

If a practical Local Option measure could be submitted to the electors of California,

Good Templar Order Organized

As announced last week, State Organizer, Oscar A. Florey was on hand at the I. O. O. F. Hall last Tuesday evening, with a large delegation from Mystic Lodge of San Jose, also a goodly number from Gerin City Lodge of Los Gatos, and Union Lodge of Burbank. There was a splendid program rendered to the audience of over one hundred who had assembled. A number of songs, recitations, and a cornet solo being given, mostly by high and grammar school students of San Jose.

Following the program Mr. Florey addressed the audience upon the merits of the Order. Twenty-eight had given their names to become charter members, all of whom could not attend that evening. However, twelve were initiated, and the charter was left open so that others may come in as charter members next Wednesday evening when the Lodge will meet again.

At about 10:30 all started home, being thankful for the part they had been able to render in starting a Good Templars' Lodge for Campbell, and hoping that all right minded people in and about Campbell would take a live interest in seeing that the Lodge is made a success in the work for which it has been organized.

Horses Run Away

A team of horses driven by Luman Gard ran away Wednesday and caused a little excitement on the streets. Mr. Gard had a narrow escape from being seriously hurt. He was just turning the corner from Hamilton avenue onto Central avenue and was on top of a load of empty apple boxes, when the horses became frightened and started to run. The driver held on the lines but was jerked from the load under the horses' heels and was run over by the wheels. Fortunately he was only somewhat bruised up. The team continued to run south until in front of the residence of C. H. Whitman they collided with a telegraph pole and broke loose from the wagon. After running around the block they were caught near the bank corners.

A social dance will be given under the auspices of the Ada Rebekah Lodge, Wednesday evening, February 22nd. Look in next week's paper for particulars.

E. C. MERRILL

It would unquestionably be ratified by a larger vote than was cast for Mr. Wallace. Thousands who would vote to license saloons at a Local Option election, would vote for a Local Option measure. While in favor of licensing saloons, such voters hold to the fundamental right that the majority of every American community should be given the privilege to say whether or not saloons shall be licensed.

It is impossible to forecast the action that will be taken on the Local Option measure by the incoming Legislature. In San Francisco, street and lobby gossip has it, that the San Francisco legislative delegation will be for every reform measure but Local Option and effective action against track gambling.

One may reasonably doubt the correctness of the San Francisco delegation's good intentions, but as a goodly part of the delegation is made up of bar-keepers and saloon-owners, there is no question, but that it will be against Local Option. And the San Francisco delegation casts practically one-fourth of the vote in the Senate and in the Assembly. If Local Option comes at all, it must come from the country members.

That the measure will have the support of the majority of the districts outside San Francisco goes without saying. But whether the country members will be able to overcome San Francisco's opposition remains to be seen.

One of the most suggestive features of the situation is that San Francisco would be very unlikely to proceed under a Local Option law even though such a measure were to be passed. The application of such a law would be practical only in counties outside San Francisco.

As a practical proposition, then, San Francisco's legislative delegation would withhold from the people of other counties the right to say whether saloons within their boundaries shall be licensed.

And yet, the good people of Del Norte and San Diego counties—as well as the counties in between—do not seem to grasp the fact that they are directly interested in political conditions at San Francisco.

Local and Personal

Miss Emelyn Beattie was at San Francisco on Saturday till Tuesday.

Miss Abbie Gilbert spent the weekend with Miss Phoebe Mitchell, of the Wil-lows.

F. E. Claver is preparing to move with his family to Richmond as soon as the roads permit.

Notice the corrected time table of the Peninsular Railway Company in this week's issue.

A medal contest under the auspices of the W. C. T. U. will be held at the Methodist church on Friday, the seventh.

Mrs. Hageman on Wednesday moved from the Los Gatos road to the Preston house on Second street.

The W. C. T. U. will meet with Mrs. Clark, on First street, next Wednesday, Feb. 8th, at 2:30 o'clock.

Mrs. Call returned Tuesday evening from a visit of several weeks at Los Angeles and southern points.

Lost—A cameo brooch, last Friday on way to car or on 1:30 car to San Jose. Return to Mrs. C. H. Whitman. Reward.

The Epworth League members will hold their monthly business and social meeting at the Methodist church this evening.

Mrs. Ainsley entertained a few friends at her home Tuesday afternoon. The ladies busied themselves at sewing. Refreshments were served.

The Santa Clara Journal, on the seventh of January, reported an almond tree in full bloom in that town. Santa Clara people are rushing the season a little.

Mrs. Brown, of Pleasanton, spent Sunday with Mrs. Henry. Her daughter, Florence Brown, is living with Mrs. Henry while taking the high school course.

The monthly business meeting of the Epworth League will be held at the church this evening after which a social time will be enjoyed and five-cent refreshments served.

The funeral of Mrs. Ann Eliza Brewster of San Jose, was held on Thursday morning, from the parlors of Curry and Gripenstraw. Rev. Geo. E. Atkinson conducted the services.

See J. H. Nelf for your nursery stock. All kinds of fruit and ornamental trees. Palms and roses, potted plants, etc. Sales yard on the corner of Campbell and Harrison avenues.

Edward Young died at his home on Budd avenue last Sunday. Mr. Young was a native of England. He leaves a wife, Mrs. Sarah Young and four daughters, Mrs. W. J. Greene, Mrs. J. E. Crawford, Mrs. J. W. Hirst and Ella L. Young.

Mrs. Julia Anna Parker died at her home in Union District, near Los Gatos, last Tuesday. She was the sister of Mr. P. G. Keith of Campbell, and the mother of Nancy Elizabeth Parker, of Los Gatos. The funeral services were held from her home this morning.

Mrs. Call started yesterday for Salt Lake City. On her return she will be accompanied by her granddaughter, Miss Esther Call, who spent some months here last year. Miss Call came here for her health, which was much benefited, but since going back to Salt Lake City she has not been so well.

The Pacific Telegraph and Telephone Company is preparing an immense new directory which it is said will be the third largest in the United States in point of circulation. The book will contain 132,000 names and will include all the bay counties, that is Alameda, Marin, San Mateo, Santa Clara, and several other exchanges.

Mr. and Mrs. Frank Lewis who came here some months ago from Minnesota, left Monday evening for Los Angeles where he has accepted a position in connection with the Dependent Children's Home Association. They made many friends while here and will be much missed especially in church and Sunday school work.

Congregational Church

The theme for the morning service, "The Good Shepherd." In the evening there will be a joint meeting of the Endeavor and church service, beginning at 7 p. m. There will be a special program as this is the 30th anniversary of the founding of the great C. E. movement which has gone with so denominations and enrolled nearly 4,000,000 members. There will also be a public installation of the new officers. All are cordially invited.

GEO. E. ATKINSON, Pastor.

The A. Van der Naillen School

of Practical Civil, Electrical, Mining Engineering. Established 1894. Graciously their own building, workshop and laboratory. Open all year. Great demand for graduates in all lines. New students should enroll at once. Address: 215 E. St. and Telegraph Ave., Oakland, Cal.

IF YOU WERE BUYING EYES

What would you get? The best of course. Follow the same plan in buying glasses.

Have them fitted properly, then buy a frame or mounting such as you can afford.

Fitting glasses for children is my specialty. No drugs. No danger.

Satisfaction guaranteed.

BERT K. KERR, Optometrist

BALL GAME OF CHEROKEES

Important Function Is Preceded by
Song and Dance Which Lasts
All Night.

The ball game as played by the
Cherokees is as important to them as
football or any other popular game is
to other people. The eastern band of
Cherokees live on the Qualla reserva-
tion in western North Carolina.

The neighborhood in which I live,
writes an Indian girl in the Red Man,
is divided into four main sections,
namely: Yellow Hill, Socco, Big Cove
and Birdtown. The Indians living in
one of these sections will challenge
those living in another to a game of
ball. They choose their players and
agree upon the time and place for
playing the game. It is generally
played in an open field far different
from the well-graded field upon which
the game of football is played.

The evening before the game the In-
dians, the women included, hold a
dance in their respective sections of
the country. These dances are held in
the open air, usually near some small
stream. The women do the singing
while the men dance. In their songs
they make all kinds of remarks about
those of the opposing side. These
dances continue all night long. From
the time of the dances until after the
game the players are not allowed to
eat any food.

The following day the people from
the different sections gather at the ap-
pointed place to witness the game.
They either sit or stand around the
edge of the field. The ball players
each have two sticks similar to those
used in the game of lacrosse, only
smaller. The ball is tossed up in the
center of the field and the game be-
gins. The object is to get it around
two poles placed at each end of the
field a certain number of times. They
cannot pick up the ball in their hands.
The players who succeed in getting the
ball around the poles at the end of
the field the greatest number of
times win the game.—Red Man Mag-
azine.

WOLF HUNTING WITH EAGLES

Kirghiz Train Great Birds to Hunt
Gazelle, Foxes and Even
Wolves.

All wanderers are lovers of the
chase, but for sheer love of sport and
daring exploits the Kirghiz take the
palm, declares a writer in the Wide
World Magazine. Central Asia is the
home of falconry, which was not in-
troduced into Europe until the Crusad-
ers brought back falcons with them
from their eastern wanderings. But
falconry is the ambition of the men who
fly their birds at wolves and foxes in-
stead of at quails and partridges! Not
content with hunting game birds with
small falcons, the Kirghiz capture and
train the great golden eagles, with
which they hunt such game as gazelle,
foxes and even wolves. A well mount-
ed Kirghiz falconer, carrying on his
wrist one of these magnificent birds,
is a fine sight. The weight of the
eagle is such that the owner requires
a support for his wrist, and the hunt-
ers are usually to be seen with a lit-
tle wooden bracket that supports the arm
against the hip. The eagles are hooded,
as all falcons are, but can only be
used in winter when they are hungry
and keen. In summer they are fed
on marmots and live a restful life, sit-
ting in the sun in front of the tent
doors. When gazelle or wolves are
the objects of the chase, the eagles
are aided by long sleek greyhounds, of
a small breed, the dogs running in and
pulling down the quarry when the
eagles have sufficiently bewildered it.

Hanged the Clever Forger.

Of curious petitions against the
death penalty being enforced, one re-
calls the eighteenth century case of
William Ryland, who was sentenced
for forging a bill for £7,114 on the
East India House. The forgery was a
work of art. No less than thirty sig-
natures were imitated, and at the trial
not one of the victims could swear
that the signature was not his own.
However, with the help of the paper
manufacturers, Ryland's guilt was
brought home. Then came the peti-
tion of his friends. So clever a man
ought never to be hanged, they plead-
ed; his craftsmanship should save
him. It gained a respite; he was al-
lowed to finish a fine engraving he
had begun, but nothing more. Though
the engraver was a favorite of George
III., that king quite failed to see how
a forgery could be excused on the
ground that it was a clever forgery.

Raises Young to Eat.

The paradise fish, one of the new
wonders of natural history, raises its
young to eat. The habits of this pecu-
liar fish are also strikingly similar to
those of a great many parents who
show little more consideration for
their offspring. The female drops her
eggs carelessly anywhere she may be
and the male gathers them up and
places them in a bubble nest, which
he blows, and awaits the hatching.
When they are sufficiently grown he
sets them, keeping them housed up
until he needs them. Some of the lit-
tle ones escape, of course, and as they
are prolific breeders, the species is
perpetuated.

COAST HAPS AND MISHAPS OF THE WEEK

Recent Occurrences Along the Pacific Slope Related in Brief Items.

Paragraphs Selected With a View to Giving Busy Readers the News in a Nutshell.

Santa Cruz.—Former Mayor Richard
P. Quinn was convicted of obtaining
money under false pretenses in a real
estate deal.

Salinas.—As the result of a wound
caused by the accidental discharge of
his shotgun while returning from a
hunting trip, Leo Axedo died here.

Los Angeles.—William P. Richards,
a dentist, was found dead in his office
in South Pasadena. In his hand was a
bottle of chloroform and the gas was
turned on full force.

Santa Cruz.—Barnecroft creek, which
is swelled by the heavy rains, washed
out the foundations of the residence of
W. M. Elson in Soquel avenue and it
fell. None of the family was injured.

Los Angeles.—President Bear of Oc-
cidental college has announced the con-
tribution of \$50,000 by Mr. and Mrs. O.
T. Johnson to the quarter centennial
fund of the institution. The present
total is \$360,000. The mark set is half
a million dollars.

Los Angeles.—Just as John Palen,
an attorney, sat down to a wedding
breakfast with his bride, relatives and
friends, police officers interrupted the
festivities by arresting him on a
charge of forgery. Palen is in custody
and his bride is prostrated.

Stockton.—Stockton voters defeated
the bond issue for \$507,609 which the
City Council wanted to use in street
work, sewers and fire department.
The opposition was based on dissatis-
faction with the city administration.
The vote was two to one against the
bonds.

Fresno.—David Wagner, an employe
of the Sperry flour mill here, died as
the result of an automobile accident.
While returning from work on a bi-
cycle, Wagner dodged out of the way
of a street car directly in front of a
touring car driven by John Clark, an
automobile livery man.

Sausalito.—P. A. Vincillione town
recorder and well known attorney of
Marin county, was indicted for bribery
by the Grand Jury. It is alleged that
he paid a \$25 check to former Justice
of the Peace J. F. Renner to dismiss
the case of cruelty to animals with
which a client of his was charged.

Los Angeles.—Mental treatment ad-
ministered to a horse suffering from
colic does not constitute cruelty to
animals, although the animal dies, was
the decision of Judge Williams in the
case of Martin Bekins, who believes
in the efficacy of spiritual treatment
for lower animals as well as man.

San Francisco.—The teachers of the
school department have finally won
their two-year fight for back pay,
claimed because of a higher rating for
experience in teaching gained in
schools outside of the city. The Board
of Education signed an order for \$12-
000 back pay that will go to about 170
teachers.

Stockton.—That a boy bandit, proba-
bly under the influence of dime novels
which he has been reading, is at large
in this city and has started on a cru-
sade of holding up pedestrians, is the
opinion of the police. Two men have
been held up at the point of a revolver
during the past two nights and robbed
by a young lad, both descriptions of
whom tally.

Sacramento.—To reduce expenses and
improve the record on his division,
Superintendent H. W. Sheridan has
withdrawn daily freight service from
many points in his territory, and re-
fuses to return to the old schedule, de-
spite several protests, including one
from G. J. Bradley of the Merchants'
and Manufacturers' Association of
Sacramento.

Oakland.—Mrs. Isabella J. Martin
for the second time convicted of dynam-
iting the home of Judge Ogden, will
probably be taken to San Quentin to
begin her sentence of life imprisonment.
She will there work on the papers
in her appeal. Mrs. Martin, at the
time she was sentenced, secured a
stay of execution for 30 days, which
expired on Monday.

San Francisco.—After a running fight
in which shots were fired by custom
inspectors at fleeing opium smugglers
in the lumber yards at the foot of
Third street, 300 five-ten tins of lai-
yun, the highest grade of opium, were
seized by Inspectors Head and Toland.
The contraband drug, in sacks, which
was abandoned by the escaping smug-
glers, has a value of \$12,000.

UNCLE SAM TREBLES GUARD ALONG THE MEXICAN BORDER

Mexico Complains That Arms Are Being Smuggled to Rebels at El Paso.

Washington.—Determined that the
territory of the United States shall not
be used as a base of revolutionary ex-
peditions against Mexico, the Wash-
ington Government has taken steps to
increase the American military and
customs forces guarding the frontier.

The Secretary of War issued orders
more than trebling the soldiers guard-
ing the border line, and the Secretary
of the Treasury authorized the Col-
lector of Customs at El Paso to ap-
point ten additional deputies to estab-
lish a more effective search for smug-
glers. It is understood that orders
were issued by the direction of the
President upon representations from
the Mexican embassy that the neutral-
ity of the United States was being
violated.

Secretary Dickinson decided that the
military patrol be increased by six
troops of cavalry from Fort Sam Hous-
ton, Texas; detachments of mounted
infantry from Fort Whipple, Arizona,
and Wingate, New Mexico, and a de-
tachment of cavalry from Fort Huachu-
ca, Arizona. The army officers have
been instructed to co-operate with the
marshals of the Department of Justice
and the customs officials of Texas.

Rag Picker Makes Fraudulent Claim.

Washington.—When the Baltimore
Sub-Treasury canceled a quantity of
old paper money recently by punching
little crosses out of it with the new
machines just adopted some one forgot
to burn the punchings according to or-
ders and put a bagful into the waste
basket. What looked like a million
dollars chopped into tiny bits was dis-
covered on the city dump heap a few
days later and caused great excitement
among the rag pickers. Jacob Gold-
berg, made an affidavit in which he
swore his little daughter had cut up a
ten dollar bill, two fives and five ones.
He inclosed a dozen of the little
crosses. He was arrested and charged
with making a false affidavit in sup-
port of a fraudulent claim against the
Government.

Construction of Monster Levee.

Hamilton City.—In order to protect
thousands of acres of land in the river
sections of Glenn and Butte counties,
a number of the farmers of this region
have clubbed together and will at once
begin the construction of a monster
levee. This dike will be over ten
miles in length and the cost will ex-
ceed \$15,000. It will extend along the
Sacramento river from a point about
six miles below Chico, Butte county,
and end near Butte City. The levee
will join the big dike on the Phelan
estate lands and will, when completed,
be one of the most substantial and
largest levees in the State.

Floods in the South.

Los Angeles.—Floods in the now
famous Meadow valley wash along the
route of the San Pedro, Los Angeles
and Salt Lake Railroad, which has cost
the railroad management many mil-
lions of dollars in times past, have
again worked havoc, and the road is
temporarily out of commission.

\$25,000 to University.

Sacramento.—Semi-annual interest
on \$751,000 bonds and \$79,750 diverted
funds, held in trust for the University
of California, has been paid on war-
rants drawn by State Controller Nye
in favor of the regents of the State
University. The interest amounted to
\$24,922.50.

Amonia Tank Creates Havoc.

Philadelphia.—In an explosion of a
large tank containing amonia in the
Locust laundry at Ninth and Locust
streets, one woman was killed, 15 to 20
girls were slightly injured and 250
other employes, mostly young women,
were thrown into a panic.

Packing House Burned.

San Bernardino.—Fire completely de-
stroyed the West Highland Citrus As-
sociation packing house, together with
15 carloads of oranges. The loss is
\$30,000. The building was fully in-
sured, but there is no insurance on the
oranges.

Shoots Wrong Man.

Los Angeles.—Shooting at a man
with whom he had quarreled, W. L.
Brent, a special deputy sheriff, aimed
badly and killed Rudolph Schreiner, his
lifelong friend. He is now in jail
charged with manslaughter.

"Coal Oil Johnny" Guilty.

Weaverville.—John Barber, better
known down Trinity river as "Coal Oil
Johnny," was found guilty of arson in
the second degree. The jury was out
less than half an hour.

WORLD'S NEWS OF THE WEEK SUMMARIZED

Adventures of the Children of Mother Earth Related in Condensed Form

Comprehensive Review of Passing Events in Every Quarter of the Terrestrial Globe.

Southampton, Eng. — Captain Chas.
Barr, the noted American yachtman,
died suddenly of heart trouble.

Cheyenne, Wyo. — Chem Chandler shot
and killed Kittle Chandler, his wife,
at Lander, Wyo., and fatally wounded
Patrick Kane. Jealousy was the cause.

Pittsburg. — While the family of
William Thaw Jr. was at dinner the
residence was robbed of jewels valued
at \$35,000. Included in the valuables
is a pearl necklace worth \$17,000, the
property of Mrs. Thaw.

Phoenix, Arizona.—Theodore Roose-
velt, accompanied by Mrs. Roosevelt
and Miss Ethel Roosevelt, will visit
Arizona on March 18th, when he comes
hither to participate in the dedication
of the irrigation dam that bears his
name.

Port Wayne, Ind.—To enable the
parents of babies to attend church ser-
vices, the Rev. H. B. Master, pastor of
the First Presbyterian Church, has
announced that a nursery in charge of
experienced kindergarten teachers will
be conducted in one of the church's
social rooms.

Chicago.—Conditions in the egg trade
have been in a deplorable state for
several days, but a climax was reached
when Chicago dealers found it neces-
sary to knock off three cents a dozen.
This latest drop brought quotations to
7 cents lower than a week ago, and 11
cents lower than a year ago.

Washington.—The omnibus claims
bill, aggregating approximately \$3-
000,000, embracing reparation mostly
for damages in the South in connection
with war depredations, was killed for
this session by the House Committee
on Claims, which, after a sub-commit-
tee investigation, indefinitely post-
poned action.

Montreal.—Sister Steecheure of the
Congregation of Notre Dame was
killed while engaged in repairing the
elevator in the Mother house of the
order. She fell 70 feet down the shaft.
Sister Steecheure had charge of all the
mechanical and electrical machinery in
the large building and was a certified
mechanical engineer.

Philadelphia.—That Sam Langford
had no intention of meeting Jack John-
son in a six-round bout in this city is
shown by the fact that a few days
after "Philadelphia Jack" O'Brien an-
nounced that the match had been made
Langford, accompanied by his man-
ager, Joe Woodman, and Bob Arm-
strong, sailed for Europe.

Chicago.—Announcement has been
made from the Pullman Company
offices that arrangements have been
completed for the application of their
new rate rules, which include a nation-
wide reduction of 20 per cent in prac-
tically all upper birth rates and a cut
ranging from 25 cents to \$1 on 20 per
cent of all lower births.

Washington.—Many mysterious cases
of illness may be attributed to copper
poison from oysters, in the opinion of
the officials of the bureau of chemistry
in the departments of agriculture ex-
perts of that bureau are now testing
specimens secured from inspected
beds. Many have been found to con-
tain copper. The beds from which
they come will be condemned.

Danville, Ill.—It is reported that the
Grand Jury has already returned indict-
ments against more than a score of
prominent politicians accused of bri-
bery in Vermillion county, the political
district of "Uncle Joe" Cannon. Many
of those said to have been concerned
in the vote buying have been "called
out of the State on business."

Grand Junction, Colo.—A 40-mile trip
over rough, unbroken country will be
made twice a week by Miss Jennie Mc-
Kenzie, who will carry the mails from
this city to the newly established post-
office at Glade Park. Miss McKenzie
has just received her appointment as
rural mail carrier. In addition to car-
rying the mails the girl will also run a
stage for passengers and freight.

Tacoma.—The first jury composed
of women to try a criminal case will
be called before Justice Arntson this
week. Karl Getshart swore out a war-
rant against Arthur Borchart, a milk-
man, charging him with drawing a
pistol on him. The charge is third de-
gree assault. Attorneys for the pro-
secution and defense agreed to submit
it to a jury of six women, and the
court granted the request.

JAPANESE POTATO KING IS GAMBLING IN FOOD STUFFS

Said to Be Holding Spuds For \$3.00 That Cost Thirty-Nine Cents.

San Francisco.—George Shima, the
Japanese who has cornered the potato
market and created an artificial famine
in tubers, is holding for \$3 a sack on
1,400,000 sacks.

A concerted attempt by labor and
anti-Asiatic commercial bodies of the
State to break the corner is being or-
ganized by A. E. Fowler, editor of the
"White Man" magazine.

Fowler secured the appointment of a
committee of five by the Labor Council
to deal with the "artificial famine" in
this food staple.

"Shima has within the past week
met his bankers in this city," said
Fowler, "and financed his corner. Po-
tatoes raised by Hindus—for he has
discharged his Japs because they won't
work cheaply enough—cost him 39
cents a sack to produce. He is hold-
ing 900,000 sacks of his own and con-
trols another 500,000 sacks, to be sold
at \$3 a sack. We must either arrange
a general boycott and force this supply
upon the market, or we must get the
Interstate Commerce commission to
interfere. In Chicago that commission
compelled the food storage trust to re-
lease great quantities of food stuffs
that it had hoarded up."

Fowler threatens to organize a mass
demonstration at Sacramento in be-
half of the anti-Asiatic bills, if the Leg-
islature does not take action in good
faith.

The Ten Best Hymns.

New York.—A New York Methodist
Episcopal Church which has taken a
poll of its congregation to determine
the ten best hymns announces the fol-
lowing list of winners: "Nearer, My
God, to Thee," "Abide With Me,"
"Jesus, Lover of My Soul," "I Love
to Tell the Story," "Lead, Kindly
Light," "Rescue the Perishing,"
"Rock of Ages," "Onward, Christian
Soldier," "What a Friend We Have in
Jesus." Four others were tied for the
tenth place: "Love Divine, All Love
Excelling," "Just as I Am," "Faith
of Our Fathers, Living Still," and "In
the Cross of Christ I Glory."

The Marmot Starts Plague in China.

Pekin.—No cases of plague having
been traced to rats since the present
epidemic began, physicians here are
convinced that the scourge now sweep-
ing over Manchuria and spreading
southward is directly traceable to Chi-
nese trappers who have handled the
skins and eaten the flesh of an animal
resembling the marmot which the Rus-
sians call "bartagen" and known to the
Chinese as "Hanta". Violating an old
custom, Mongolian trappers are said to
have engaged in the killing of these
fur bearing animals in winter and the
pestilence is the result.

Dogs in Bakersfield Muzzled.

Bakersfield.—Members of the Field
Trials Club, meeting here, were
alarmed for the safety of their blooded
dogs as the result of an epidemic of
rabies which is causing the death of
many local dogs. The city trustees
passed an ordinance requiring all
canines to be muzzled.

Getting Away From Epidemics.

Chicago.—Travel to California has
become so heavy because of epidemics
of pneumonia, influenza and kindred
diseases in middle western States that
the railroad companies are sending out
their limited trains in two and three
sections. Travel west is constantly in-
creasing.

Car Repairer Suicides.

Sacramento.—John R. Sweeney, a
car repairer employed at the local rail-
road shops, followed in the steps of
two brothers by committing suicide by
shooting himself in the temple with a
revolver. No cause other than that of
heredity can be attributed to his action.

Trouble in Negro Quarters.

Vallejo.—After firing a shot through
the shoulder of Mrs. Eliza Holmes, a
negress with whom he was infatuated,
Ernest Sykes, a negro employed on
Mare Island, placed the muzzle of a
revolver in his mouth and ended his
own life.

Fresno Farmer Suicides.

Fresno.—N. P. Jensen, a farmer, re-
siding about seven miles from Fresno,
killed himself by shooting himself
through the head with a pistol. Fear
that he was becoming insane prompted
the man to take his life.

New Theater in Martinez.

Martinez.—A new theater is to be
constructed in this city by Joseph A.
Kelly announced that he would begin
work on the new structure as soon as
the weather would permit.

Facts About Motherhood

The experience of Motherhood is a
trying one to most women and marks
distinctly an epoch in their lives. Not
one woman in a hun-
dred is prepared or
understands how to
properly care for her-
self. Of course near-
ly every woman now-
adays has medical
treatment at the
time of child-birth,
but many approach
the experience with
an organism unfitted for the trial of
strength, and when the strain is over
her system has received a shock from
which it is hard to recover. Follow-
ing right upon this comes the nervous
strain of caring for the child, and a
distinct change in the mother results.

There is nothing more charming than
a happy and healthy mother of chil-
dren, and indeed child-birth under right
conditions need be no hazard to health
or beauty. The unexplainable things
that, with all the evidence of shattered
nerves and broken health resulting
from an unprepared condition, women
will persist in going blindly to the trial.
It isn't as though the experience
came upon them unawares. They have
ample time in which to prepare, but
they, for the most part, trust to chance
and pay the penalty.

In many homes once childless there
are now children because of the fact
that Lydia E. Pinkham's Vegetable
Compound makes women normal,
healthy, and strong.

Any woman who would like
special advice in regard to this
matter is cordially invited to
write to Mrs. Pinkham at Lynn,
Mass. Her letter will be held in
strict confidence.

Put Oil in Your Lamp.

The human body has been com-
pared to a lamp, the life being the flame.
If the lamp, or body, is kept supplied
with oil the flame will burn steadily
much longer than when not. The
patriarchs lived much longer than
men live today, and olive oil was with-
out exception one of their "blessings,"
which they daily used. Whether the
comparison is merely fanciful or not
it is hard to say, but there seems to
be an element of truth in it.

THE SECRET OF SUCCESS

Genuine Merit Required to Win the People's Confidence

Have you ever stopped to reason
why it is that so many products that
are extensively advertised, all at once
drop out of sight and are soon for-
gotten? The reason is plain—the ar-
ticle did not fulfill the promises of the
manufacturer. This applies more par-
ticularly to a medicine. A medicinal
preparation that has real curative
value almost sells itself, as like an
endless chain system the remedy is
recommended by those who have been
cured, to those who are in need of it.
In an interview on the subject, a
prominent local druggist says: "Take
for example Dr. Kilmer's Swamp-Root,
a preparation I have sold for many
years and never hesitate to recom-
mend, for in almost every case it
shows immediate results, as many of
my customers testify. No other kid-
ney remedy that I know of has so
large a sale."

The success of Dr. Kilmer's Swamp-
Root is due to the fact that it fulfills
every wish in overcoming kidney,
liver and bladder diseases, corrects
urinary troubles and neutralizes the
uric acid which causes rheumatism.

A free trial bottle will be sent by
mail, absolutely free. Address Dr.
Kilmer & Co., Binghamton, N. Y., and
mention this paper. Sold at druggists'
in bottles of two sizes—50c. and \$1.00.

An Ancient Anaesthetic.

A Chinese manuscript lately dis-
covered proves that anaesthetics were
used in China seventeen hundred
years ago. A certain concoction, it
states, was given by the doctors be-
fore performing an operation, which
render the patient unconscious. The
anaesthetic was a simple preparation
of hemp.

Tot's Idea of Heaven.

The children's idea of heaven is a
place where all the mothers have colds
and big giants go around with hand-
kerchiefs and wring their noses.

\$5.00 AN ACRE

\$5 per acre, 100-acre farms. We are just
opening for sale at first cost 30,000-acre
colony in the delta of the Sonora River,
Mexico, close to Gulf sea, and 20 hours'
ride in a Pullman from Los Angeles.
True Delta garden soil, unsurpassed for
early oranges, limes, peaches, wheat, corn,
beans, cotton, broom corn and winter vege-
tables. FREE IRRIGATION. Good rainfall.
Adjoining corn and bean fields. Personally
inspected and approved by C. M. Wooster,
who has bought 1000 acres. Buy 100 acres
and join a colony of select people in the
best climate and richest land on earth.
Send \$250 cash. Last, and only chance to
get such land. Title perfect. Write at once,
C. M. WOOSTER CO., 702 Market Street,
San Francisco, Cal.

S. F. N. U. No. 5, 1911

READERS of this paper desiring to buy anything advertised in its columns should insist upon having what they ask for, refusing all substitutes or imitations.

MILK IN THE COCOANUT

Delusion That Fluid Has Anything in Common With Real Milk Dissipated.

Probably everybody has wondered at times what kind of stuff the "milk" of the coconut is. One inducement generally held out by the dealer to the prospective purchaser is that the nuts are "all milky." Recent analysis, however, have dissipated the delusion that the fluid has anything in common with real milk. It contains only four per cent. of solids, consisting chiefly of sugars 2.8 per cent., the balance being made up of mineral matter and tartaric acid.

More than half of the sugar present is mannitol, the sweet principle of manna which is sometimes found also in wine as a product of normal grape sugar. The question has been discussed as to whether it would be profitable to extract the coconut water for the sake of its cane sugar, but as this amounts to only one-tenth per cent. the process would not be commercially successful, in spite of the water being a waste product. Even if the water contained five per cent. of sugar, as some specimens appear to have shown, the recovery of this amount would be unprofitable. The juice of the sugar cane yields nearly 20 per cent. of sugar.

Makes a Difference.
The moment anything assumes the shape of a duty, some persons feel themselves incapable of discharging it.

Instant Relief for All Eyes
that are irritated from dust, heat, sun or wind, PETTIT'S EYE SALVE. All druggists or Howard Bros., Buffalo, N. Y.

Might Be Good Idea.
It is distressing to think of the waste of time and money, and sometimes temper, which could be avoided if education in housekeeping were recognized as a part of the school curriculum.—Exchange.

Only One "BROMO QUININE"
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 25c.

a Mean Man.
"Why do you argue with your wife? Don't you know it doesn't do you a bit of good?" "Sure I do. But I ain't got such a mean disposition as to deprive her of the pleasure."

The province of Quebec is credited with owning two-thirds of the water-power of Canada, of which but a bare fraction has been utilized.

Much-diluted sulphuric acid will remove ink stains from furniture, which should be wiped with water afterward to remove the excess fluid.

Warming the Devil.

An almost incredible case of superstition is reported from Ribhal, near Grosswardein, Hungary. The place has never before experienced an earthquake, but recently a series of violent shocks shook the neighborhood, some being so violent that the church bells rang. The villagers were greatly alarmed and consulted an old woman quack of the place, who declared that the shocks were the groans of the devil, who suffered cold and hunger. Thereupon the peasants threw a number of calves and goats into a chasm outside the village to appease the devil's hunger and set fire to the bishop's forest in the neighborhood to provide him with warmth. The quack and several peasants have been arrested.

EVERY WOMAN WILL BE INTERESTED.
There has recently been discovered an aromatic pleasant herb cure for woman's ills, called Mother Gray's AUSTRALIAN LEAF. It is the only certain regulator. Cures female Weakness and Backache, Kidney, Bladder and Urinary troubles. At all Drug, Gists or by mail 50 cents. Sample FREE. Address the Mother Gray Co., Le Roy, N. Y.

A Happy Comet.
Harry, aged six years, was greatly excited over his first trip on a steamboat, and his father allowed him to stay on deck with him for a while in the evening. His attention was at once directed to the light of the searchlight moving to and fro. Excitedly, he grasped his father's hand and said: "Daddy, look! There must be a happy comet near here. See how he wags his tail!"

Selling Horse Flesh.
Dealers selling horse flesh in Paris are required to indicate the nature of their business by placing a horse's head in a conspicuous position, so that it can readily be seen by purchasers. Annually \$29,700,000 pounds of horse and mule meat are sold, representing a slaughter of 61,000 animals.

Pollution of Our Streams.
Pollution of streams in America is rapidly getting to be a grave for making graves. Things done by the old country to keep peace, public morality and health are the very things we are gradually finding out we Yanks have got to get down to and imitate, and so eat humble pie.

Gems as Poison Antidotes.
Poison was the terror of the middle ages; it is natural, therefore, to find many remedies among gems—the jacinth, the sapphire, the diamond, the cornelian, the ruby, the agate, the topstone, the bezel stone were all used as antidotes to poison.

It Surely Is.
It is a great thing to be satisfied with what we have.—Edward Bok.

When You Take Cold

One way is to pay no attention to it; at least not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

When the bowels are constipated, poisonous substances are absorbed into the blood instead of being daily removed from the body as nature intended. Knowing this danger, doctors always inquire about the condition of the bowels. Ayer's Pills.

Made by the J. C. Ayer Co., Lowell, Mass.

Love a Sacrifice.
Love is a many-sided sacrifice. It means thoughtfulness for others; it means putting their good before self-gratification. Love is impulse, no doubt, but true love is impulse wisely directed.—H. R. Haweis.

INVESTMENT
In a legitimate going concern that will pay big returns and will stand the strictest investigation; offers limited amount of stock for sale. Bank references. Address Schwartz, 45 Stockton St., San Francisco, Cal.

His Reckless Views.
"Wrong idea of life, has he?" "Yes. He thinks a five-dollar bill was made to be changed."—Harper's Bazar.

Diphtheria, Quinsy and Tonsillitis begin with sore throat. How much better to cure a sore throat in a day or two than to be in bed for weeks with Diphtheria. Just Keep Hamlin's Wizard Oil in the house.

A Distinction.
Ladies and gentlemen are permitted to have friends in the kennel, but not in the kitchen.—S. Bernard Shaw.

The brushes or an ordinary carpet-sweeper are used in one of the newest vacuum cleaners to loosen the dust before the suction reaches it.

Help yourself a little, and God will help you a whole lot.

This world is with the smiler and against the groucher.

It is easy to be good when you are getting paid for it.

The easy things are hard to find.

THE KEYSTONE TO HEALTH IS HOSTETTER'S STOMACH BITTERS

We cannot emphasize too strongly the importance of keeping the stomach and bowels in an active condition in order to avoid sickness. The Bitters will do this, also prevent Stomach Ills, Colds and Grippe. Try it.

MAKING OF PLAYING CARDS

Supposed to Have Been Invented for Amusement of Deranged King of France.

The invention of playing cards has been variously attributed to the Chinese, Hindoos, Arabians and Romans, but cards as now used were invented by Jacques Grignon, a painter, in Paris, in the fourteenth century. They were supposed to have been first made for the amusement of Charles VI. of France, who was deranged. The French had particular names for the 12 court cards. The four kings were David, Alexander, Caesar and Charles; the four queens, Argine, Esther, Judith and Pallas; the four knaves or knights, Ogier the Dane, Lancelot, La Hire and Hector de Garland.

Cards seen originally to have been brought to England from Spain, probably having been introduced into that country by the Moors. The clubs, in Spanish, were not trefoils, as with us, but cudgels, i. e., "bastos," and the spades or swords, "espadas." Cards at first were stamped from wood blocks in outline and filled in by hand, but after the invention of engraving the best artists engraved them on copper and struck them off at once. "Columbines" were spades, "rabbits," clubs; "pinks," diamonds, and "roses," hearts. Human figures, opposed to those of flowers and animals, were the ancestors of court cards.

Maybe Not.
Don't be too anxious to correct a man when you hear him make a mistake; he may not want to be corrected.

Piles Cured in 6 to 14 Days.
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

Attended 3,097 Funerals.
Rebecca Wentzel of Pottstown, who is eighty-two years old, has kept a record of the funerals she has attended during her lifetime. She has been present at 3,097 since she was nine years old, or an average of 42 a year.

We are not in the trust and sell anyone: Bath \$10, Sink \$2, Basin \$5. Everything in Plumbing goods at cut rates, prices lowest in town. C. P. Plumbing Material Supply Co., Inc., 320 to 328 McAllister St., near Larkin. Phone Market 4087.

Origin of Firewater.
When the Hudson's Bay Trading company began its trading among the Indians it was found that by selling the Indians liquor they could more easily be induced to trade their peltries.

The first whisky or intoxicant of inferior quality was distilled in England and brought to America in large barrels, but in transporting it overland it was found more convenient to divide it into small kegs. The traders soon became aware of the fact that by diluting the whisky with water more furs could be obtained. This was practiced for some time, but the Indians learned that good whisky poured on fire would cause it to flame up, whereas had the whisky been diluted the fire would be quenched. It was by this simple experiment that the term "firewater" became a common word among Indians.

A chief who had experienced the bad effects of whisky among his people said it was most certainly distilled from the hearts of wildcats and the tongues of women from the effects it produced.—Red Man.

Prosperous Outlook.
"Since belin' in the city," the Billville man wrote to his home folks, "I have been hit by three automobiles, and of my lawyer tells me true, I'll get enough money in damages to fetch the whole family for a good long stay, an' of the balance of you kin continue to get run over we'll be able to buy a big farm an' live happy ever afterward."—Atlanta Constitution.

Lacked Atmosphere.
"I did hope for an artistic career," said the disappointed looking man, "but I met with difficulties I could not conquer. What I needed was atmosphere." "I see," the same old trouble. What were you—an author or a painter?" "Neither. I was learning to play the trombone, but I was naturally short of breath."

Girls Sold in Slavery.
In Yunnan, China, girls are still sold into slavery. In one year about 300 children from this neighborhood were sold to dealers and carried to the capital in baskets like poultry. At ordinary times the price for girls is 75 cents for each year of their age, but in time of famine children become a drug on the market.

Birds Fond of Russian Mulberry.
There are many three, shrubs and vines which bear fruit that is not eaten by human kind, but is acceptable and nourishing to birds. The Russian mulberry is one of the most valuable trees to plant, as its fruit ripens early, and many birds prefer it to early cherries or strawberries.

Reflected in the Face.
Every right action and true thought sets the seal of its beauty on every person's face; every wrong action and foul thought its seal of distortion.—Ruskin.

Tin is the most valuable metal at present exported from China.

Money talks but it doesn't always respond when spoken to.

Grin and bear it—but try to dodge it next time.

Faint?

Have you weak heart, dizzy feelings, oppressed breathing after meals? Or do you experience pain over the heart, shortness of breath on going up-stairs and the many distressing symptoms which indicate poor circulation and bad blood? A heart tonic, blood and body-builder that has stood the test of over 40 years of cures is

Dr. Pierce's Golden Medical Discovery

The red blood corpuscles are increased in number—and the nerves in turn are well fed. The arteries are filled with good rich blood. That is why nervous debility, irritability, fainting spells, dizziness and are overcome by this alternative extract of medicinal roots put up by Dr. Pierce without the use of alcohol. Ask your neighbor. Many have been cured of scrofulous conditions, ulcers, "fever-sores," white swellings, etc., by taking Dr. Pierce's Discovery. Just the refreshing and vitalizing tonic needed for excessive tissue waste, in convalescence from fevers or for run-down, anemic, thin-blooded people. Stick to this safe and sane remedy and refuse all "just as good" kinds offered by the dealer who is looking for a larger profit. Nothing will do you half as much good as Dr. Pierce's Golden Medical Discovery.

Inherent Nobility.
The aids to noble life are all within.—Arnold.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Vacuum Explained.
Mrs. Wiggs—"John, what is an absolute vacuum?" Wiggs—"An absolute vacuum, my dear, is something that exists only in your mind."

RAZORS SHARPENED
All Safety Razor blades sharpened, 50c doz. Gillette's. Yes, Star Blades, 20c each. Razors ground and honed 45c. Work guaranteed. Wrap coin with blades or razor and mail to Bartlett Honing Co., 1640 Polk St., San Francisco. (Prompt attention.)

Stimulus Needed.
Human nature requires a stimulus, and the taking away of that stimulus is not the best means of keeping a man up to his best individualistic effort.

BOYS AND GIRLS GIVEN A CHANCE.
We start them in business. Sell 24 packages of Ford Metal Polish and earn money, not premiums. Outfit free. Ford Supply Co., Dept. 20, Vallejo, Cal.

Extremes Equally Wrong.
The girl who studies her dress to the detriment of her mind is nearly as bad as the girl who polishes her mind to the neglect of her appearance.

Ought to Be Thankful.
Some people grumble because the rose has thorns. They ought to be thankful that thorns have roses.

CONSTIPATION

MUNYON'S PAW-PAW PILLS

Paw-Paw is a fruit that grows in most tropical countries and is regarded by physicians as the greatest digestive known. In fact, it is the only vegetable yet discovered. Its action upon the liver and stomach is truly wonderful. Having combined this natural remedy with other medicaments, I assert that I am giving to the world the greatest stomach, liver and blood remedy known to mankind. Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour; they do not irritate; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are thirty-two feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver ailment can expect to have a clear complexion, or enjoy good health. If I had my way, I would prohibit the sale of nine-tenths of the cathartics that are now being sold, for the reason that they soon destroy the lining of the stomach, setting up serious forms of indigestion, and so paralyze the bowels that they refuse to act unless forced by strong purgatives.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weakening; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physics.

MONEY BACK
If you try these pills and are not perfectly satisfied with the results, I will refund your money. If you need medical advice, bear in mind that our physicians are at your service free.

CAMPBELL INTERURBAN PRESS

PUBLISHED EVERY FRIDAY

LEWIS C. DICK

Editor and Publisher

Entered as second-class matter September 20, 1904, at the Postoffice at Campbell, California,
under the Act of Congress of March 3, 1879.

Subscription, \$1.00 per Year in Advance

Locals, 5c per Line each insertion

Display Adv., (2 or more inches) 50c an inch per month. 1 inch 75c per month.

Notices of Entertainments where a charge is made, Cards of Thanks, etc., 5c per line.

MOVED

The Interurban Press office was this week moved to the Sutter
building opposite the post office, where we are assured of being able
to stay for one year at least. This new location is much more desirable
for business purposes and more convenient in many ways.

The Religious Liberty Association of California is very active in its
efforts to prevent the passage of a Sunday bill which is now before the
Legislature. It is said that they have the signatures of nearly seventy
thousand voters against the bill. Aside from the Seventh Day Advent-
ists we wonder how many "religious liberty" loving people support
such a petition. No doubt the largest number of the petitioners are
license and pleasure loving people who have no regard whatever for
the Sabbath or its sacred uses. The Adventists may be sincere in their
intentions but they are on the wrong track and are certainly in bad com-
pany. As a religious denomination they will never make much of an
impression on the general public, but by their co-operation with the
forces of evil, including the saloon interests, they may block the efforts
of the stronger organizations which are seeking to accomplish some de-
finite good results through legislative measures.

At the Board of Trade meeting at Mountain View last week there
were three members present besides the president and secretary.
Mountain View, Los Gatos, and Campbell seem to be in the same class
so far as interest in the public welfare is concerned.

Do your trading in Campbell. The few cents you may save by
chasing around in San Jose looking for bargains will not compensate
you for the loss of time and shoe leather.

Purification of Air.

A suggestion for the purification of
air in the subways is contained in a
recent issue of the Electro Chemical
and Metallurgical Industry, the sys-
tem of Dr. R. von Foregger, who a
few years ago proposed the use of
fused sodium peroxide. Water added
to this chemical would cause the pro-
duction of sodium hydroxide and
would liberate oxygen. The sodium
hydroxide would then absorb the car-
bon dioxide of the air, and thus in ad-
dition to furnishing a fresh supply of
oxygen it would purify the air as well.

SUMMONS

IN THE SUPERIOR COURT OF THE STATE
of California, in and for the County of Santa Clara,
George B. Tolman, plaintiff, vs. Charlotte M.
Tolman, defendant.

Action brought in the Superior Court of the State
of California in and for the County of Santa Clara,
and the complaint filed in the office of the Clerk of
said County of Santa Clara.

The People of the State of California send pre-
ceting to Charlotte M. Tolman, defendant.

You are hereby directed to appear and answer
the complaint in an action, entitled as above,
brought against you in the Superior Court of the
State of California, in and for the County of Santa
Clara, within ten days after service on you of this
summons, if served within this county, or within
thirty days if served elsewhere.

And you are hereby notified that unless you so
appear and answer as above required, the said
plaintiff will take judgment for any money or dam-
ages demanded in the complaint as arising upon
contract, or will apply to the court for any other re-
lief demanded in the complaint.

Given under my hand and the seal of the Super-
ior Court of the State of California, on the 31st day of December,
A. D. 1910

(Seal)

HENRY A. PEISTER, Clerk

By J. M. Shute, Deputy Clerk

Mr. and Mrs. Williams Home Again

Mr. and Mrs. A. G. Williams returned
Thursday from an extended visit in dif-
ferent parts of the Mississippi valley and
other points. As it has been seventeen
years since they visited their old home in
Iowa they no doubt saw many changes.
Their many friends here, and especially
we Iowa people, would be pleased to
read something from them in next week's
Press.

Change of Organists

Miss Beattie has resigned as organist
at the Methodist church and has accepted
a similar position with the Congrega-
tional people. She will begin her duties
there next Sunday morning. The organ
at the former church will be played by
Mrs. Dwight V. Ross, of San Jose. Mrs.
Ross was formerly Miss Avenel Brand-
enburg, of Campbell, and her friends are
delighted to know that they will see
more of her here.

T. L. Sharp Retires

Since February 1st E. C. Merrill has
had entire charge of the wood, grain and
livery business, formerly run by Sharp &
Merrill. Mr. Sharp will continue his of-
ficial duties as constable and will reside
on Harrison avenue, in the cottage now
occupied by F. E. Claver. Mr. Merrill
is assisted by "Mike" Shell who will
move into the Sharp cottage next to the
barn.

The Rainfall at Campbell

The following is the rainfall at Camp-
bell as registered by the gauge kept by
F. M. Richter:

	1909-10	1910-11
September.....	.75	.00
October.....	.00	.25
November.....	.95	.17
December.....	5.08	.69
January.....	2.75	12.61
Totals to Feb. 1st, 9.53		13.72

Knew the Wrong Man.

It was with a good deal of confi-
dence that he walked up to the magis-
trate's desk in a Philadelphia station
notwithstanding the fact that a police-
man had a firm hold on both sleeves.
He waited quietly till one of the po-
licemen made the accusation of "drunk
and disorderly" and then asked the
magistrate if he might speak.

"Yes," replied the magistrate. "What
have you to say?"

"Well, judge, I was drunk last night,
but it does not often happen. I have
lived in this ward nearly all my life,
and any one can tell you that."

"Oh, lived here all your life, have
you? Do you know any one in the
ward that can speak for you?" asked
the magistrate.

"Yes," said the prisoner, "I know
— He can tell you all about me."

"You know him, do you? Well, so do
I. Ten days," was the result.

THE EARTH'S ENVELOPE.

Three Distinct Strata of Air Sur-
round the World.

The new science of the air is the re-
sult of many hundred kite and sound-
ing balloon flights made by day and
by night in fair weather and foul over
land and sea at all seasons of the year
and from the equator to the arctic cir-
cle. Most people know that the warm
air surrounding the earth is only a
thin belt, but we do not most of us
know that at ten miles above the
earth it would not only be bitterly
cold, but the sun would appear quite
different.

The air is stratified in three more or
less distinct layers. In the lowest we
live. It extends about two miles and
is a region of turmoil, whimsical
winds, cyclones and anti-cyclones. At
two miles the freezing point is reached,
and then there is a second stratum
extending upward for about another
six miles. Here the air grows steadily
colder and drier, the lowest tempera-
ture recorded being 167 degrees below
freezing point. Here the air moves in
great planetary swirls produced by
the spinning of the earth on its axis
so that the wind always blows in the
same easterly direction.

The greater the height the more fu-
rious is the blast of this relentless
gale. After this layer comes the third,
or isothermal stratum, discovered al-
most simultaneously by M. de Bort
and Dr. Assman. This is called the
permanent inversion stratum, because
the temperature increases with the
height reached. But the temperature
so far recorded in the second stratum
are not high, being far below zero F.,
generally somewhere from 122 degrees
to 140 degrees below it.

Here the air no longer swirls in a
planetary circle. The wind may blow
in a direction contrary to that in the
second layer. And the air invariably
is excessively dry. Where this third
stratum ends no one knows. But it
must be more than eighteen miles
above the earth, for sounding balloons
have reached this height and have not
found the end of the permanent inver-
sion layer of air. When the influence of
the upper regions of air upon the lower
is fully understood it may be possible
to foretell the weather not merely for
a day, but for a week.—Chicago Trib-
une.

HATCHET SHINGLE GAUGE.

Device For Laying Shingles Without
Use of Straightedge.

There are many places on a roof
where it is not practical to lay shingles
to a chalk line or straightedge,
which makes it necessary to use some
kind of gauge. Instead of having a
special gauge for this work, one can
be attached to the shingling hatchet,
as shown in the accompanying cut.

The gauge consists of a piece of wire
bent as in Fig. 1 and attached to the

GAUGE ON HATCHET.

hatchet by driving the sharp end into
the end of the wood handle, Fig. 2.
A staple is also driven over the wire
to keep it from turning. The method
of using the gauge is shown in Fig. 3.
The length of the wire will depend
upon the number of inches the shingle
is to be exposed to the weather.—
Popular Mechanics.

Potatoes Preserved on Coke.

A new method for keeping potatoes
and preventing sprouting is reported
by Richard Guenther, United States
consul at Frankfurt, Germany. It con-
sists of placing them on a layer of
coke, and Dr. Schiller of Brunswick,
who is responsible for the idea, is of
the opinion that the improved ventila-
tion thus gained is not alone responsi-
ble for the result. He believes that it
is due to the oxidation of the coke,
which, however, is a very slow one.
Coke contains sulphur, and he consid-
ers it quite possible that the minute
quantities of oxides of carbon and
sulphur which result from the oxida-
tion, mixing with the air and penetrat-
ing among the potatoes, are sufficient
to greatly retard sprouting. Potatoes
so treated are said to keep in good
condition for a year.

Limit of Mining Operations.

The boring conducted by the Prus-
sian department of mines at Czechow,
in Silesia, had to be discontinued re-
cently upon reaching a depth of 2,240
meters in view of the fact that the
cost of drilling at this depth in hard
sandstone was out of proportion to the
obtainable results. Like the boring at
Paruschowitz, in Silesia, which had to
be abandoned at a depth of 2,003 me-
ters on account of the drills breaking,
the Czechow boring was undertaken
for scientific purposes only since min-
ing operations are of course entirely
impossible at this depth, even if no
account is taken of the rapidity with
which the expense for hoisting in-
creases with depth.—Scientific Ameri-
can.

A Fire Kindler.

Put about a gallon measure full of
sawdust that has been well saturated
with kerosene into a deep tray. Add
enough melted rosin to stiffen the en-
tire amount when it is cold. When
cold this mixture can be cut into
squares and put away until ready for
use. Put one square of the kindler
into the fireplace of a stove and place
the fuel on top. A hot fire will be pro-
duced a short time after the lighting.
